Dear David!

We congratulate you with an anniversary!

We are grateful to you for the help in training of our students and for your consent to head joint scientific work in laboratory «Space researches, technologies, systems and processes». We hope that under your management we will receive interesting scientific results which can be used for the blessing of all mankind.

I am sincerely glad to acquaintance to you. And you and your senior companion Robert Farquhar known scientists in the world, experts studying laws of a space for achievement by mankind of distant space.

On behalf of my Russian colleagues, colleagues from MIEM SIU HSE and branch «Analysis of innovative technologies, systems and processes» the Russian academy of natural sciences I thank you for your outstanding scientific achievements, for teamwork with the Russian scientists, for your educational activity.

*For you, Joan and your relatives, best regards from me and my family!
Good to you of mood and a strong health!*

Eugene.
